Education.

Education.

The noble example of Mr. Peabody has been followed, though in a different direction, by Mr. Whitworth, who has presented a sufficient sum to lound thirty scholarships of £100 a year each; for the checation of from men who have already distinguished themselves beyond their fellows by industry and preseverance. This will provide a stingular to humble telent and obscure genius, which will probably lead to hobba results. These scholarships are to be applied to the "Inited Kingdom selected by open competition for their intalligence and proficiency in the theory and practice of mechanics and its cognate sciences, with a view to the promotion of engineering and mechanical injustry, and with the hope of bringing science and indistry is closer felation." The President of the management of the endowment fund; and in an official letter published hints are given of establishing in the great contros of manufacturing industry fit places for scientific instruction in matters, pertaining to productive industry. Hopes are expressed that hir, Whitworth's manifecture arounds may be extensively followed, and a promise of State assistance and co-operation implied. Here is a signal apportunity brought home, as it were, through the doors of the great and wealthy. The return is immediate, and the result certain. Give to the keen brains and determined wills of our most prominent mechanics the advantage of education, and the augmented happiness and prosperity of the nation will assuredly follow.

Hongkong, Friday Evening:

The market for Bengal Drug has been rather quiet to-day, with only a limited amount of business in progress. The Bears have been attempting to lower the prices in view of the very large quantity of drug that will have to be purchased by them to meet their funciful sales, but it is to be hoped that clearances will go on, and no undue pressure he bright to bear upon the market by holders of drug or buyers on three weeks' time, failing due about the 28th instant. In Malwa a good amount of business has this day been done, these appears to be syntams of Native enquiry, and a good many of the dealers have been going round to fool the market. Some sales were effected in the morning at \$657\forall on cash terms, and subsequently several purcels to the extent of about 100 chests, changed hands at \$655, subject to inspection and approval. The quantity of inferior Drug on sale at present is very large, and is only now and then boing taken up by the natives at \$657\forall to \$602\forall with a small reduction in weight; there is, however, not much disposition on the part of holders of really first quality to appear in the market, at the new raling low and removes prices. It is, reported from good quarturs that the next supply would also be moderate, sty 1,000 to 1,200 ubests, in which case higher rates might with somid-ence be looked for. The following may be taken as the closing prices:

New Patha, \$637\forall to \$640, and \$642\forall to \$645 of the 5th sales to arrive; New Benares, \$622\forall to \$625—there has been a great many companions lately ubout this Onland, the balls turning the part of the strade of t COMMERCIAL INTELLIGENCE to \$625—there has been a great many com-plaints lately about this Opium, the balls turn-ing out ill-shaped and badly washed, indamuch as \$5 to \$15 a chest allowances are claimed by the Obinese; Molwa, \$660 to \$662, but even at these rates roully good Drug cannot be obathined in any quantity.

thined in any quantity.

The nation dealers in the Piece Con is market are still baying Woodlene, and prices are buging in ming to tend upward. For scarlet Long Elis \$9.20 has been refused, and a continuation of the present feeling will no doubt establish a much better range of prices. In Grey Cottons and Yara, there is little, if anything doing, the market being exceedingly quiet. The sales reported to day embrace 500 pieces scarlet Long Ellest \$3.00, 120 pieces Cambetant \$16.50, and 600 pieces asserted Spanish Stripes at 66 cents. There is nothing to report in Raw Cotton. The Share market is dull—a few Bank have been settled at 16 and 25 premium respectively for old and now, beyond which we hear of no business.
